

Scott's High Performance Fly Rods

For the committed, there are few things that match the joy of owning and fishing the finest hand made bamboo fly rod.

We've partnered with award winning master cane builder, Bernard Ramanauskas, to design and craft rods that push the boundaries of split cane technology while staying firmly grounded in the long traditions of the bamboo rod maker's art.

From the node stabilized hollow built blanks with

butt swells, to the Hariki hand made nickel silver ferrules, to the Snake Brand nickel silver extra select agate stripping guides, every detail of these rods has been meticulously thought out and crafted.

Each rod is hand signed by the master rod builders at Scott and Bernard Ramanauskas to commemorate our design partnership.

Works of art with cutting edge performance- Scott SC bamboo fly rods.
