## BAMBOO FLY RODS

Thomas & Thomas Individualist bamboo rods have been the hallmark of the rodmaker's art for more than 30 years. They have earned world-wide acclaim, prized by serious anglers of all means who appreciate the investment of a lifetime. Thomas & Thomas rods have been thoughtfully chosen as gifts for royalty, heads of state and captains of industry. Each rod receives the individual attention of T&T's master craftsmen, right down to the smallest of details. They feature a hand-rubbed, high-gloss varnish finish, hand-wrought nickel silver reel seats with burled walnut spacers and the finest quality cork grips. The unparalleled quality of these rods extends to such fine detail as the gently sculptured sliding band on the reel seat and the ultra-fine jeweler's knurl at the edge of the sliding ring.

There are simply no finer bamboo rods made, regardless of price. They are the aspiration of anglers devoted to the lure and lore of fly-casting tradition. You will never experience more pleasurable or satisfying fly-fishing.

**Individualist™** - Our finest bamboo fly rods are designed with a complex taper that turns from a delicate tip-top to the distinctive T&T swelled butt and come with an extra tip. Built from the finest individually selected Tonkin cane, the flamed bamboo is complemented by translucent guide wraps and medium brown wraps at the tip-top and ferrules.

**Classic Series** - These bamboo fly rods are of two-piece straight butt design. Each is appointed with cinnamon colored wraps, hand-rubbed finish, nickel silver reel seat components and come in the same rod bag and brass appointed rod tube provided with the Individualist series rods.

## appointments

- Rods for #2, #3 and #4 lines feature a nickel silver butt cap and oxidized black sliding ring, with burled walnut reel seat spacer and Cigar grip.
- Rods for #5, #6, #7 and #8 lines are fitted with hand-buffed nickel silver up-locking reel seat, mortised burled walnut spacer and Western grip.
- Each rod comes with an aluminum tube finished with precision-machined nautical brass fittings.
- Individualist Grilse and Salmon models are provided with a 2" detachable fighting butt.
- Individualist Collector Grade rods have two tips, each of which is a mirror image of the other...made from the same culm of bamboo with identical node positioning.
