The standard of excellence in an heirloom quality rod

INDIVIDUALIST™ RODS

Our finest split cane rods are designed with a complex taper that runs from a delicate tip top to the distinctive T&T swelled butt. Individualist rods have two tips, each of which is a mirror image of the other...made from the same culm of bamboo with identical node positioning. T&T artisans give individual attention to a hand-rubbed, high-gloss varnish finish, hand-wrought nickel silver reel seats with burl walnut spacers and the finest quality cork grips. The unparalleled quality of these rods extends to such fine detail as the gently sculptured sliding band on the reel seat and the ultra-fine jeweler's knurl at the edge of the sliding ring. Built from the finest individually selected Tonkin cane, the flamed bamboo is complemented by translucent guide wraps and medium brown wraps at the tip top and ferrules. Each rod comes with an aluminum tube finished with machined brass fittings.
