

Tonkin Cane

We read with interest your article "Selecting Cane," by Hoagy Carmichael (January-February, 1981).

In addition to the source mentioned genuine pre-embargo Tonkin cane can be

obtained from Anglersmail of Cleveland, Ohio.

Our supply of some several hundred culms has been properly stored and naturally curing for several decades. Wide node spacing, compactness of primary fibers, lack of water spots and rich harvest-gold coloration are some of the features that make our small cache invaluable to the craftsman wishing to make the finest rod possible.

Interested parties are invited to address all inquiries to me at Anglersmail for a prompt reply (6497 Pearl Road, Cleveland, Ohio 44130). When these culms are gone, the likelihood of another store of pre-embargo Tonkin surfacing is most remote.
