# From ultra-light rods to fly fishing rods

## Spinning Rods.

Luxor-Luxe (B) rods are manufactured with selected and reinforced split bamboo cane and fully deserve the reputation that spinning devotees have given them.

Telebolic (A) rods were developed by Charles Ritz and possess a multiple cone action, enabling powerful and exceptionally accurate casts to be made.

(For more detailed information, refer to our catalog : « Sport Fishing »).

## Fly fishing rods.

Our Parabolic glass (C) rods are manufactured with the same care as our best split bamboo cane rods; they have the best action of all present-day rods in tubular glass.

Parametric (D) rods have been selected from the Berkley's (USA) range; they are the best available on the American market. The introduction of Parabolic reinforced split bamboo cane rods in 1938 marked the discovery of total or « Parabolic » action.
