FOREWORD TO ROD SECTION

All our rods are built and designed by anglers for anglers, with the finest quality Built Cane and Greenheart. We specialise in the finish and fittings of our rods, all joints, rings, and reel fittings being the best obtainable.

Each model has been tried and proved over an extended period before being included in our range, so that anglers may purchase with the guarantee that each will do what is claimed for it and more, and that no better value and workmanship is possible.

Provided our rods are given normal use and care, they will give long service over many years.

We quote the following hints to extend the life of all rods:—

1. Always hold the sections of the rod by the metal ferrules when assembling or dismantling, **never** by the cane or greenheart.
2. Bring in your rods annually for a check up, when we can varnish and renew any tyings where required.
3. Never put rods away when damp; allow to dry in the open and then put in covers. Never tie up rod covers too tightly, more especially when wet.
4. Always hang up rods in covers, never lean against a wall, otherwise distortion of rod sections will occur.

BUILT CANE FLY RODS FOR TROUT

THE "SUPREME" FLY ROD

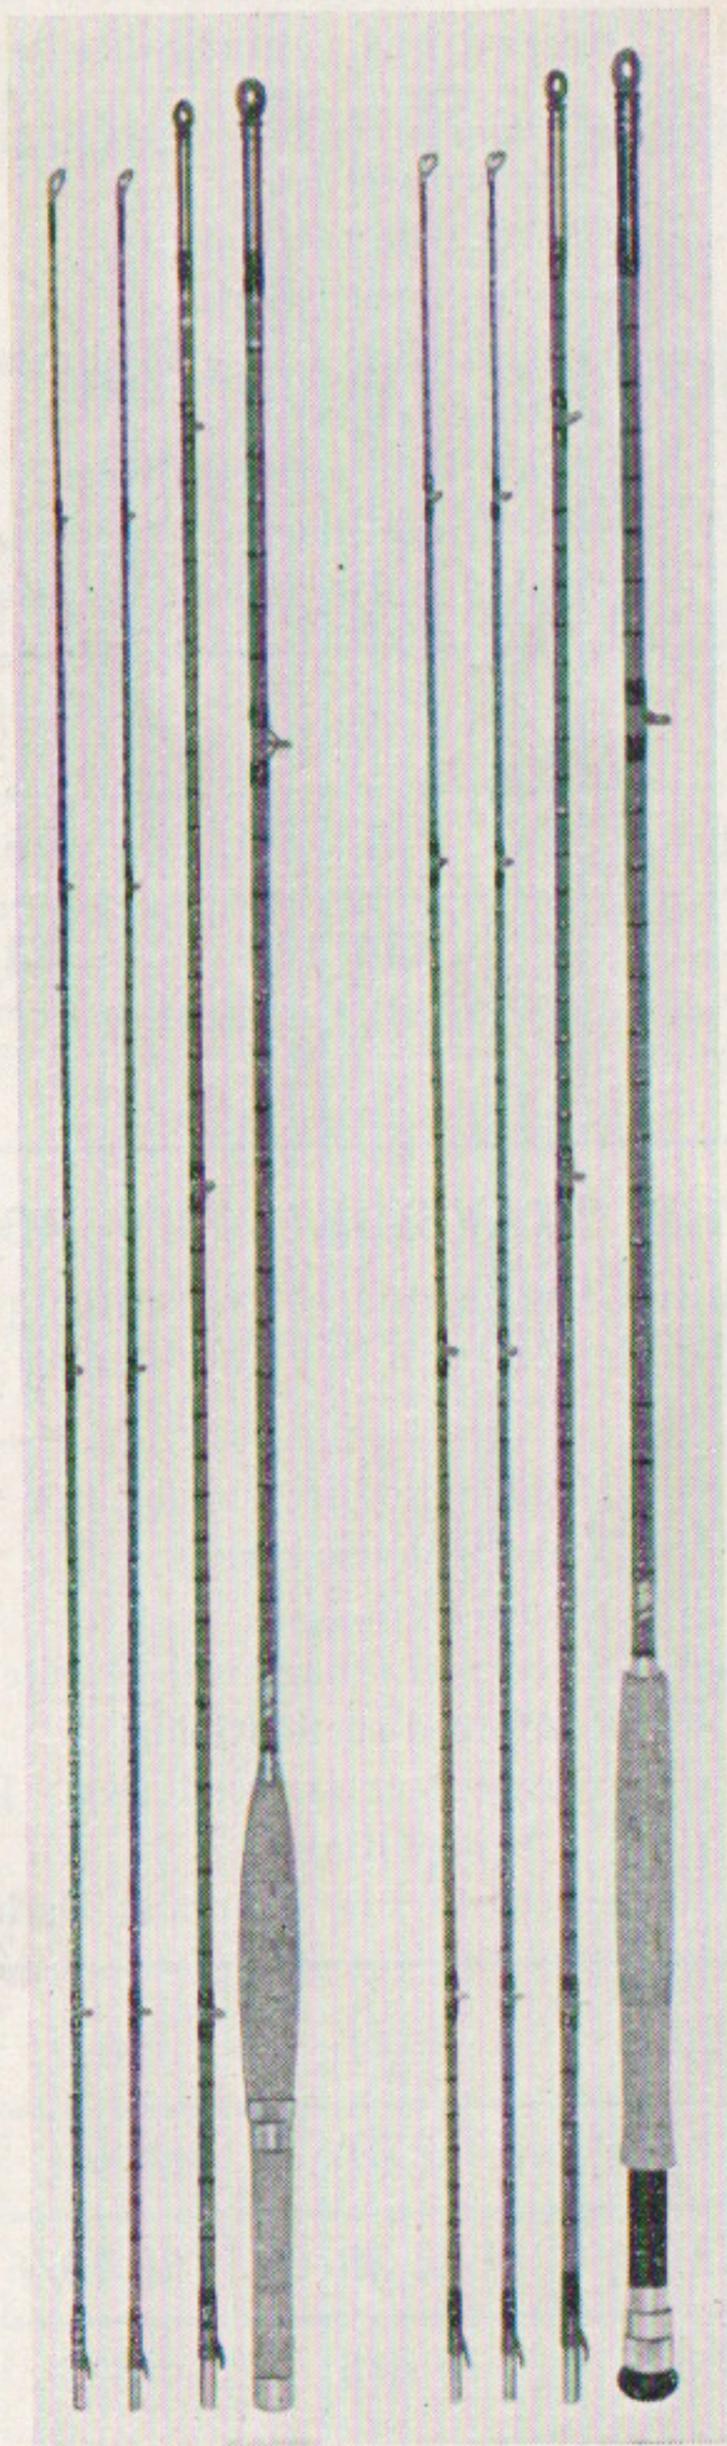

This is a Built Cane Rod of highest quality and workmanship. We specially recommend it for the angler who fishes mostly for trout and yet on occasions requires a rod with sufficient power to handle sea trout. The particular build of this rod gives it the necessary "back-bone" and yet the weight is normal.

Specification.

- Action* - - - Medium stiff.
Pieces - - - Three with two tops or one top.
Handle - - - Cork, shaped.

Built Cane Fly Rods for Trout

THE "REGAL" TWO-PIECE FLY ROD

This Two-Piece Built Cane Trout Rod is undoubtedly one of the finest made. It is powerful, but very light, perfect in action, and for casting against wind it is unbeatable. We strongly recommend this rod.

Specification.

Action - - Medium, suitable for wet or dry fly.

Pieces - - Two pieces with one top.

Handle - - Shaped Cork.

Reel Fittings - Ebonite reel seat. Screw grip reel fittings, rubber button.

Joints - - - Best quality reinforced suction joints.

Rings - - - Agate butt and end rings; Intermediate full-open Bridge Rings.

Tyings - - - Spaced at $\frac{3}{4}$ in. intervals; Dark Green Silk.

Length -	9 ft.
Weight -	5 $\frac{3}{4}$ ozs.
Price, - -	£10 15/-
Rod Cover	7/6

Built Cane Fly Rods for Trout

THE "SUPREME" TWO-PIECE FLY ROD

This Two-Piece Built Cane Rod is a medium weight rod, very suitable for both loch and river fishing. It has sufficient power to easily handle sea-trout if required, yet is light enough to be used for a whole day's angling without fatigue. The action is more powerful than the "Regal" Two-Piece, and is ideally suitable for dry fly fishing.

Specification.

Action - - Medium to stiff.

Pieces - - Two pieces with one top.

Handle - - Shaped Cork.

Reel-Fittings - Ebonite reel seat. Screw grip reel fittings, rubber button.

Joints - - - Left-hand screw lock joints.

Rings - - - Agate butt and end rings; Intermediate full-open Bridge Rings.

Tyings - - - Spaced at $\frac{3}{4}$ in. intervals; Chocolate Brown Silk.

Length	-	9 ft.
Weight	-	6½ ozs.
Price	- -	£11 5/-
Rod Covers		7/6

GREENHEART FLY RODS FOR TROUT

THE "GLEN" ROD

This is a good trout fly rod at a reasonable price, made from best quality seasoned Greenheart. The action is suitable for wet or dry fly, very light to handle.

Specification.

Pieces - - Three with one top.

Handle - - Shaped Cork.

Reel Fittings - Bronzed universal reel fittings.

Joints - - - First quality suction joints.

Rings - - - Bronzed snake rings and plain point ring.

Tyings - - - Black Silk.

Length -	9 ft.	9½ ft.	10 ft.	10½ ft.
Price - -	£4 7/6	£4 10/-	£4 12/6	£4 15/-
Rod Cover	7/-	7/-	7/-	7/-

The "GLEN" Rod is also made with Sapphrite But and Point Rings and full-open intermediate Bridge Rings at £1 per rod extra.

Greenheart Fly Rods for Trout

THE "ANGUS" ROD

This is a very moderately priced Greenheart Fly Rod. It is a light rod with a good medium action, suitable for wet or dry fly. In spite of the low price, we can confidently recommend it as a good rod.

Specification.

- Pieces* - - Three with one top.
Handle - - Shaped Cork grip.
Reel Fittings - Bronzed universal reel fittings.
Joints - - - Suction joints.
Rings - - - Plain point ring; Bronzed snake rings intermediate.
Tyings - - - Ferrules and rings tied with Black Silk.

Price - -	£12 17/6
Rod Cover	7/6

Salmon and Sea Trout Fly Rods

THE "REGAL" SEA TROUT OR LIGHT SALMON ROD

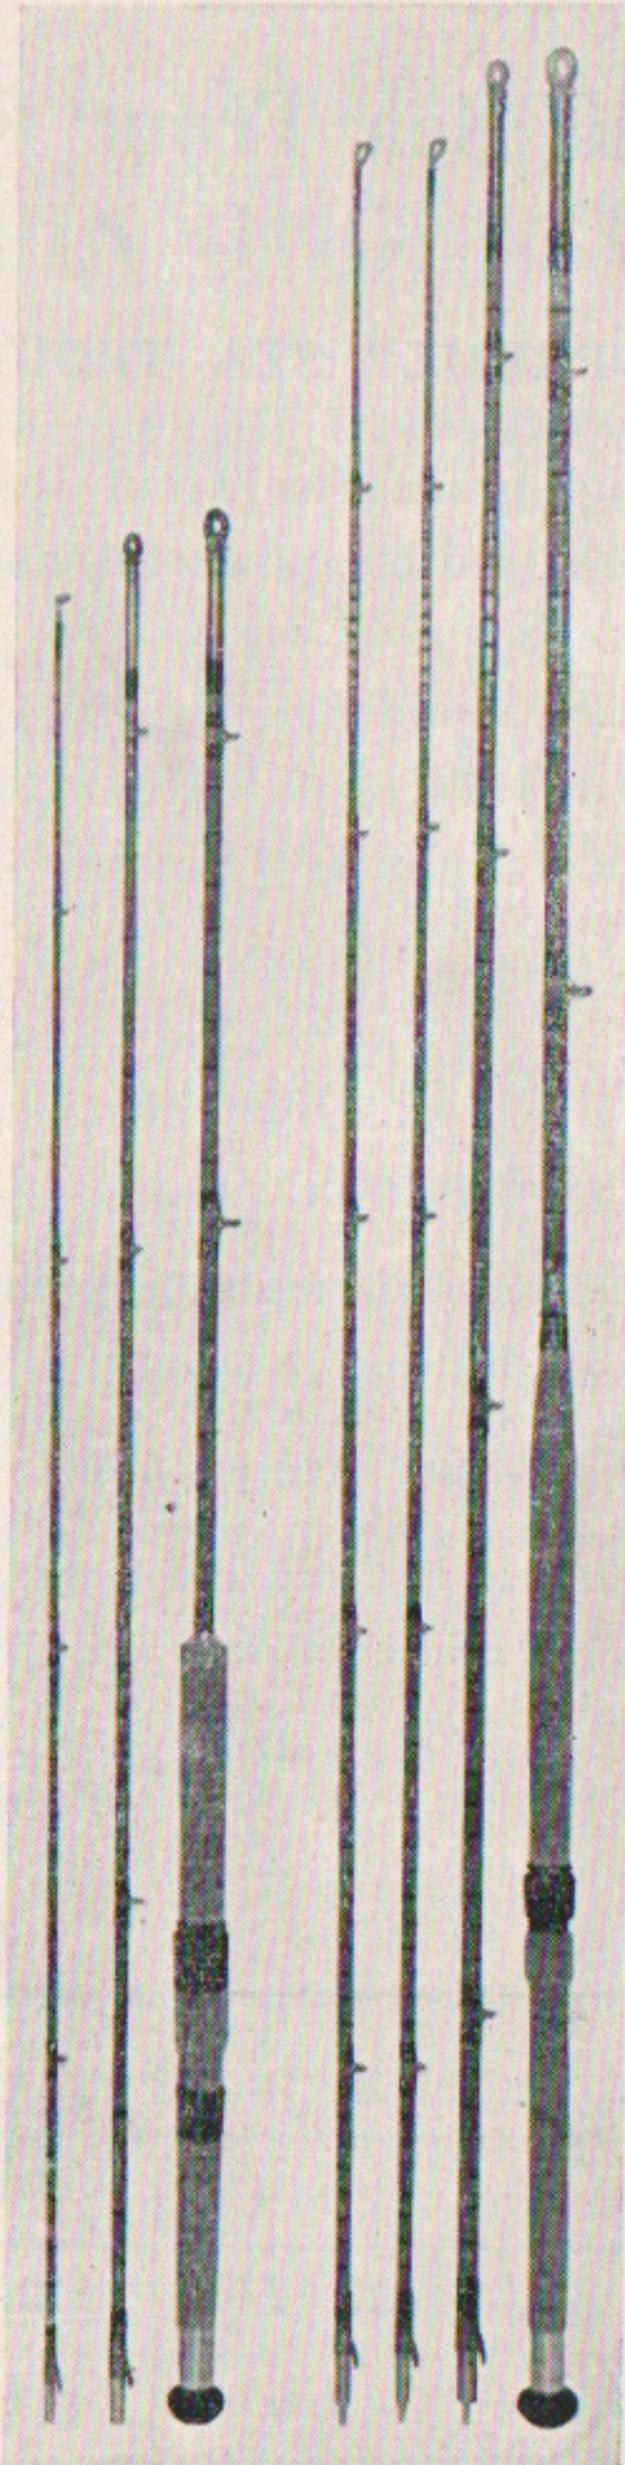

This rod in first quality Built Cane is an ideal double-purpose rod. It is perfect for Sea Trout, and when required will easily handle Salmon. We specialise in two lengths, namely, 10½ ft. and 11 ft. Both rods have a long cork handle, and may be used double-handed if required, but are light enough to use single-handed as well. The 11 ft. rod is ideal for Greased Line as well as ordinary fly fishing.

Specification.

- Action* - - Medium to powerful.
Pieces - - Three with one top.
Handle - - Shaped Cork with rubber button.
Reel Fittings - Adjustable screw grip.
Joints - - - Left-hand screw lock joints.
Rings - - - Agate butt and end rings; intermediate full-open Bridge Rings.

TROUT AND SALMON SPINNING RODS

THE "TAYSIDE" SPINNING ROD

This is made of first quality Built Cane and is suitable for Threadline Spinning. There are two models, one for trout and the other for sea trout and salmon. These rods have both power in casting and lightness, and are so well balanced that a mere flick of the wrist enables one to make a long cast.

Specification.

Pieces - - Two with one top.

Handle - - 16 inch Cork Handle with rubber button.

Reel Fittings - Two adjustable ring fittings.

Joints - - - First quality suction joints.

Rings - - - Large Agate butt ring, Agate point ring; Intermediate full-open Bridge Rings.

TROUT AND SALMON FLY REELS

THE "E. R. L."

This Reel is in a class by itself, having some special features. As shown in the illustrations, the Reel has three main parts—the line drum, the reel frame, and the revolving plate. To dismantle, the line drum is held in the left hand and the revolving plate unscrewed by turning the handle anti-clockwise. In the salmon size reels,

there is also a screw to be removed first from the centre of the back of the line drum. This can be done easily with a coin. The tension spring of the ratchet is adjustable by means of the regulator on the rim of the frame.

Trout	Size - -	3 in.	3¼ in.	3½ in.
	Price -	£4 17/6	£5 5/-	£5 17/-
Salmon	Size - -	3½ in. W	3¾ in. W	4 in. W
	Price -	£5 19/6	£5 19/6	£6 10/-

With Stainless Steel line guide, 12/6 extra.

Trout and Salmon Fly Reels

THE "TAYSIDE"

A substantially made Reel of good quality, made from Aluminium Alloy, suitable for either Greenheart or Built Cane rods. It is easily dismantled for cleaning by removing the centre screw with a coin. It is a Reel at a moderate price which we can thoroughly recommend.

Price, 25/9

THE "ANGUS"

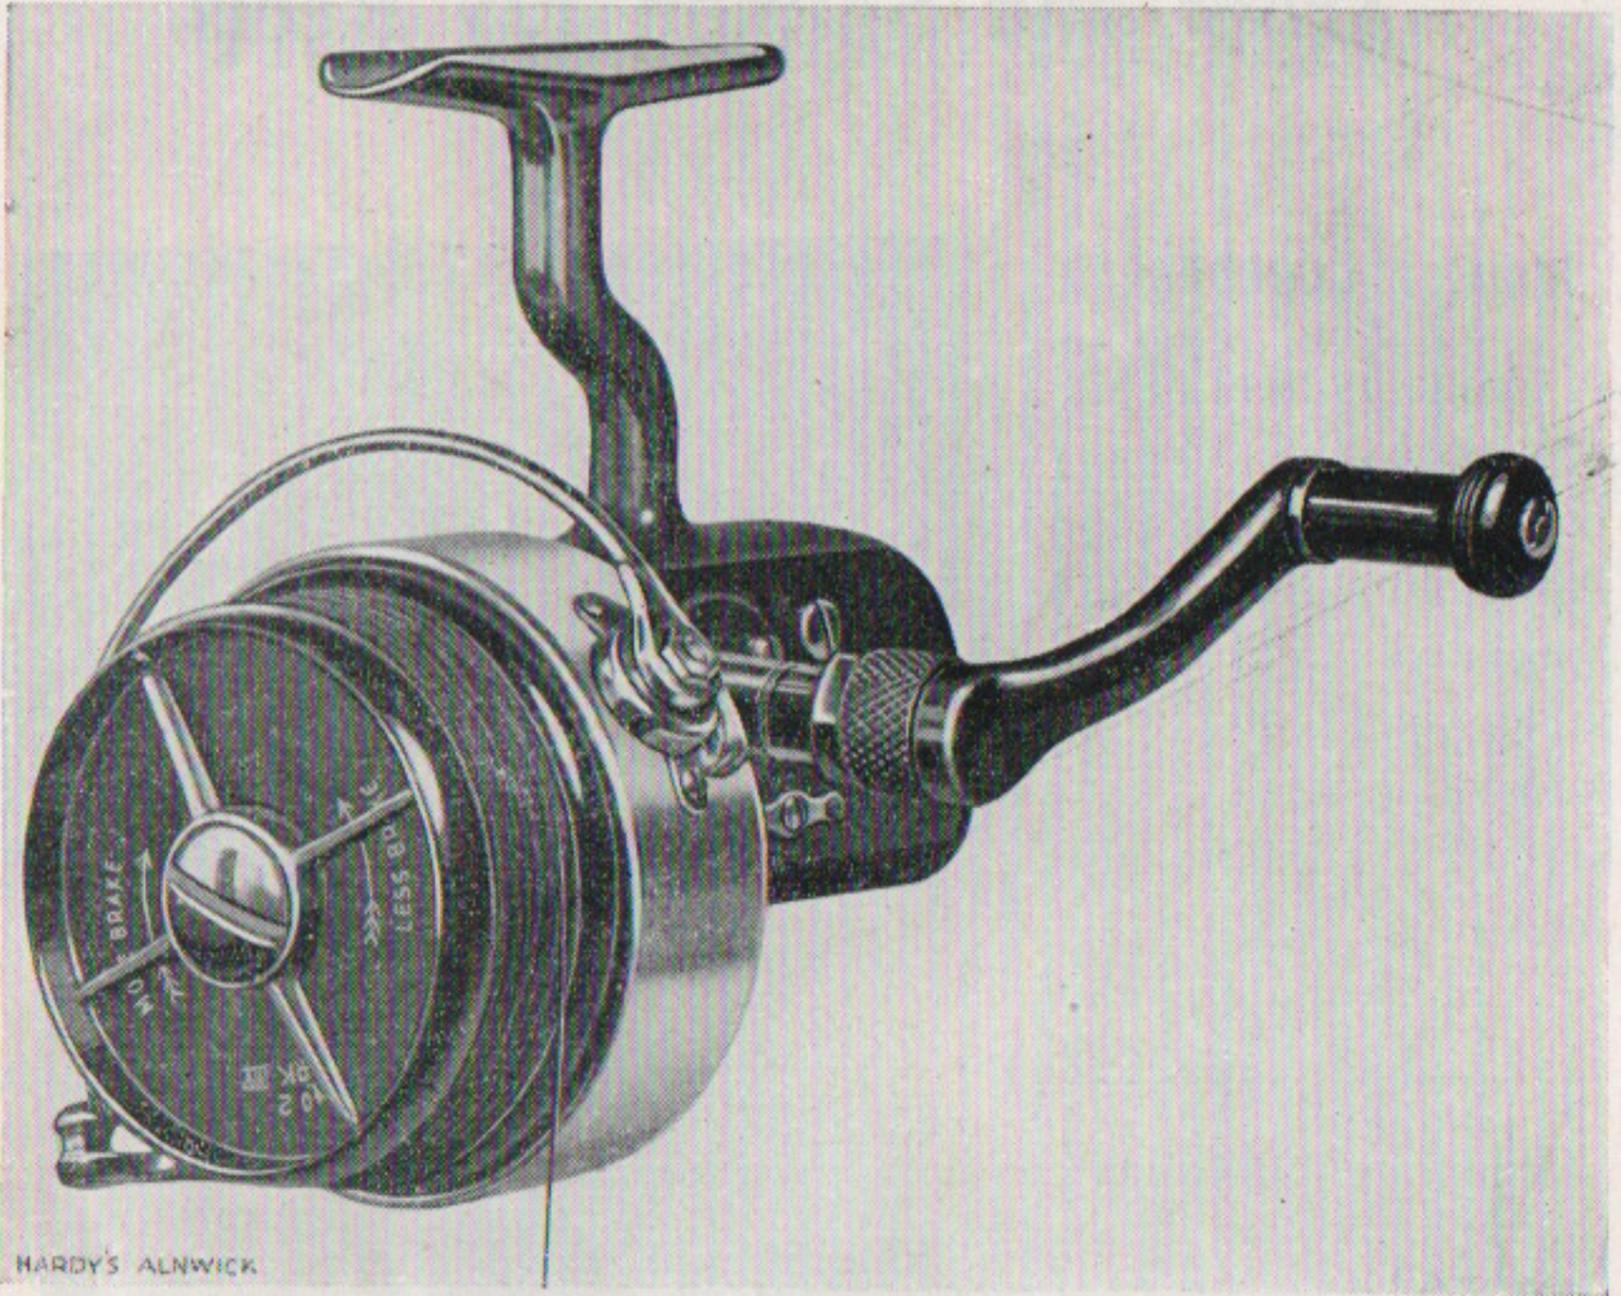

A good value reel made of bronzed brass, with balanced handle and optional check.

Size 2½ in.

Price, 20/6

Trout and Salmon Spinning Reels

THE "ALTEX" MADE BY HARDY, ALNWICK

A Fixed Spool Threadline Reel of superb workmanship which has unique features found on no other reel of this type. Amongst these are the Worm Drive, the special design of Automatic Pick-up, the Break-down Handle, and Pick-up Roller. The ease and smoothness of operation makes this reel a delight to handle.

When playing a fish, the tension control is very easily changed and the mechanism of the handle is such that it cannot turn backwards, a point which is of great benefit in use.

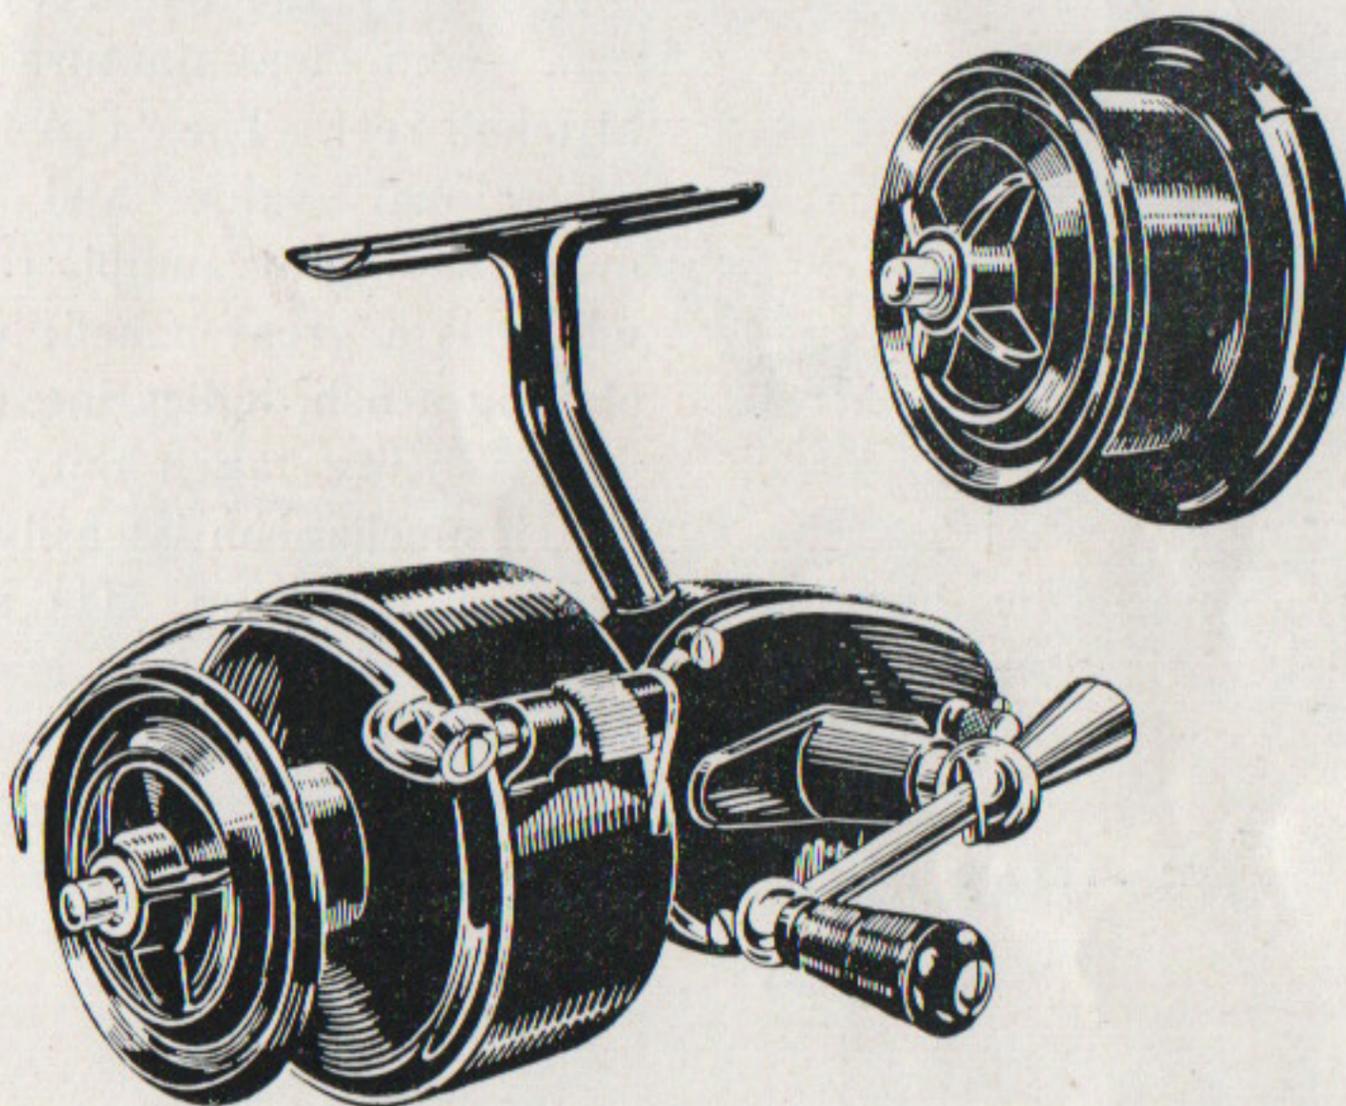

It is made in three sizes

No. 1 for Trout. No. 2 for Salmon. No. 3 for Heavy Salmon.

In practice, we find that the No. 2 Reel is the best proposition, as one may use it for both Salmon and Trout by having two line drums, one with a trout line and the other with a salmon line.

	No. 1	No. 2	No. 3
Price -	£11 11/-	£12 2/-	£13

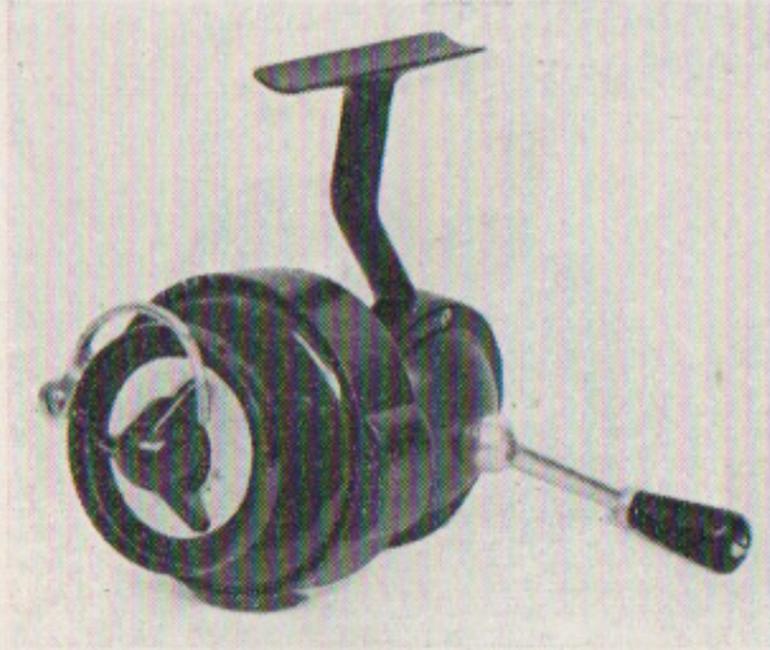

THE "MITCHELL" THREADLINE REEL

The "Mitchell" Threadline Reel has many outstanding features which are usually only found on reels of much higher price. It is fitted with two drums, one for trout line and the other for sea trout or salmon line. Each drum contains its own Ratchet and Tension Systems. The handle is fitted with a special ratchet check which prevents the handle reversing when the angler is altering the tension of the clutch while playing a fish. This ratchet may be used or not as required. It has an automatic level wind and is precision made in every detail. We consider this reel, which is of French manufacture, really excellent value.

Price, £7 7/-

THE "C. A. P." THREADLINE REEL

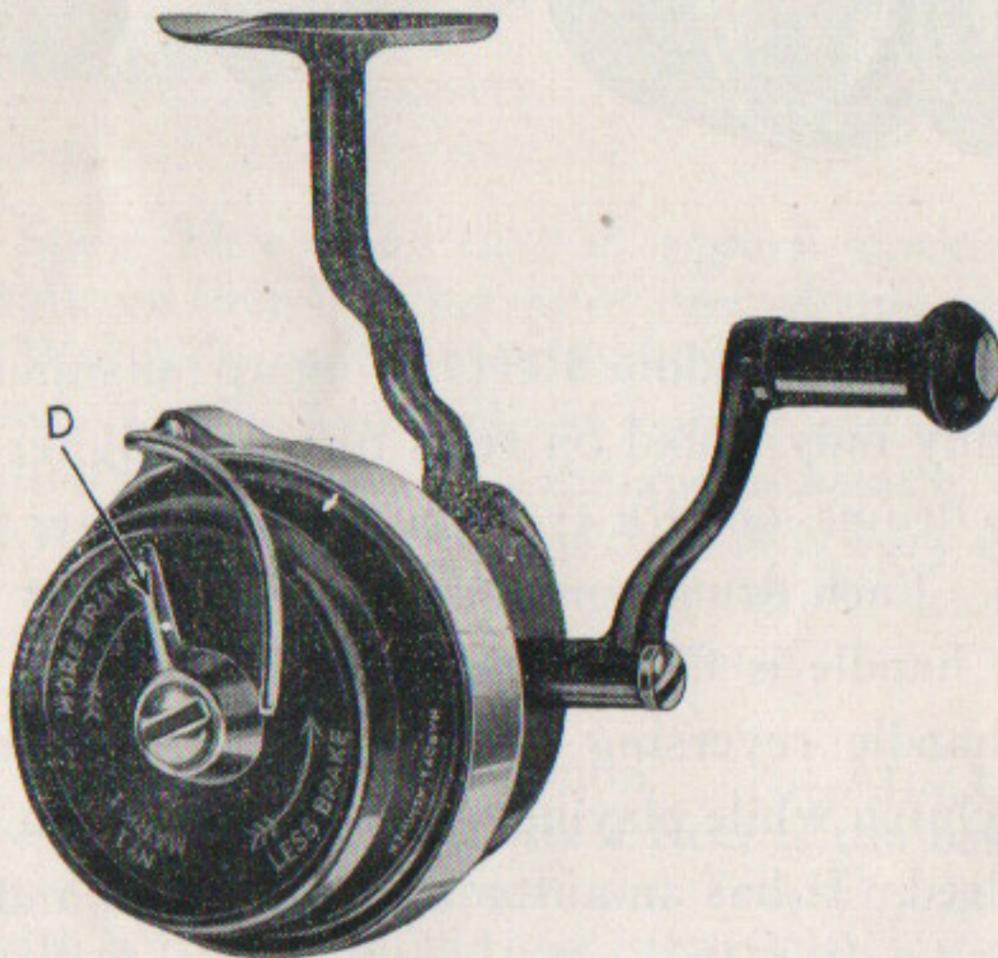

The "C.A.P." Threadline Reel is made by the same French firm who manufacture the Mitchell reel. The "C.A.P." is exceptional value and well made, having an audible ratchet which is a great benefit when playing a fish, indicating when line is being taken out. The clutch mechanism is easily and

smoothly operated by the capstan screw on the drum. The automatic pick-up is operated by an easily accessible push-in lever.

Price, £4 16/6

THE "HARDEX" FIXED SPOOL REEL

This is a reel of remarkable value which, for a low-priced reel, has all essential features. It is very smooth in operation, has a sensitive clutch and easily operated automatic pick-up.

Trout Size, No. 1
Salmon Size, No. 2

Price, £3 7/3
Price, £4 5/7

THE "AMBIDEX" FIXED SPOOL REEL

This is a Threadline Casting Reel of fine quality, made to use either with left or right hand wind. The principal features are a good line spreading device, a sensitive and easily operated slipping clutch, a check to indicate when a fish is taking line.

The No. 1 size is suitable for trout and the No. 2 size for trout or salmon.

	No. 1	No. 2
Price -	£6 17/6	£8 5/-

THE No. 3 DUAL PURPOSE HELICAL CASTING REEL

This is an entirely new model British-made Reel with many outstanding features. It is completely made of metal alloy, has two drums, one for trout and one for salmon. The mechanism is very smooth running, with an audible ratchet when line is being taken. The tension regulator is very efficient and easily operated. The slipping clutch is very smooth in action and the pick-up is automatic and easily operated.

Line Capacity—Salmon Drum.

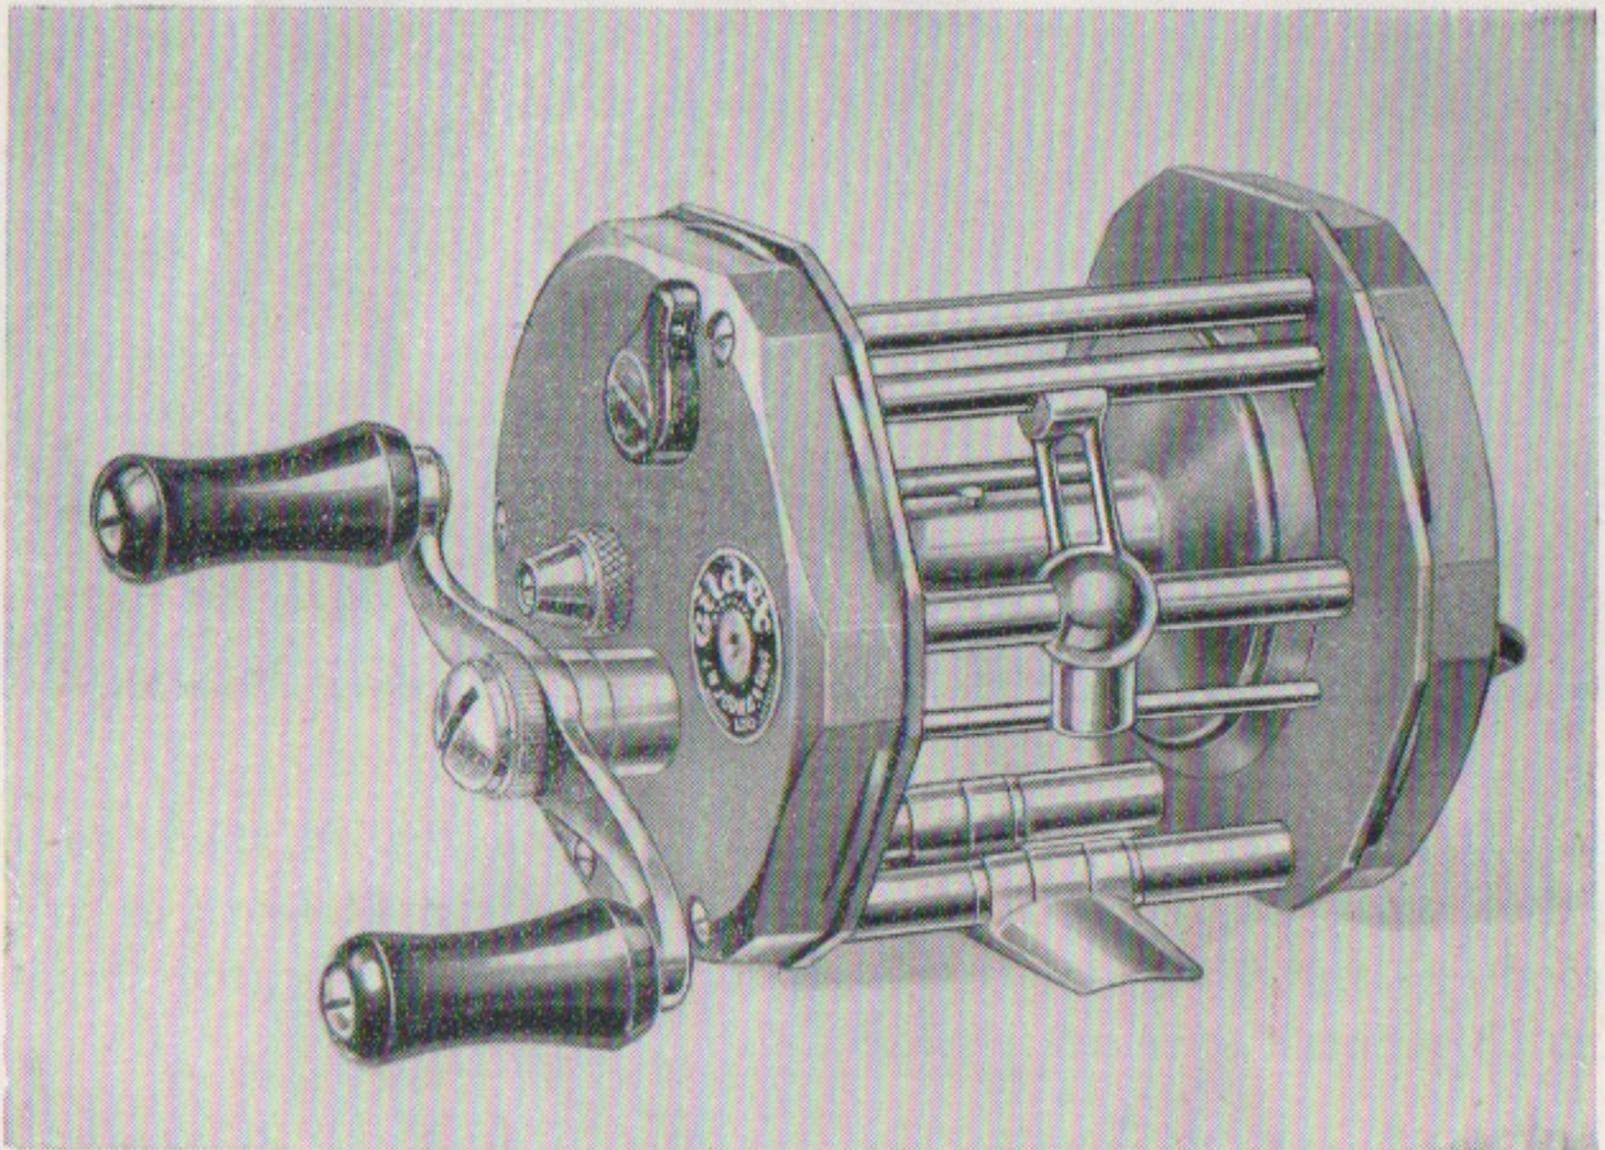

150 yds. .014 Nylon, 8 lb. 100 yds. .017 Nylon, 11½ lb.

Line Capacity—Trout Drum.

100 yds. .012 Nylon, 5 lb.

Price with 2 Drums, **£6 9/3**. Spare Drums, **13/9** each

THE "GILDEX" LEVEL WIND REEL

The "Gildex" Spinning Reel is made up of over eighty precision-machined component parts. Finished in Gun-metal Polychromatic and Chromium Plate. It has a rapid line-recovery, by 4 to 1 winding ratio, even distribution of line by level wind mechanism, adjustable over-run control.

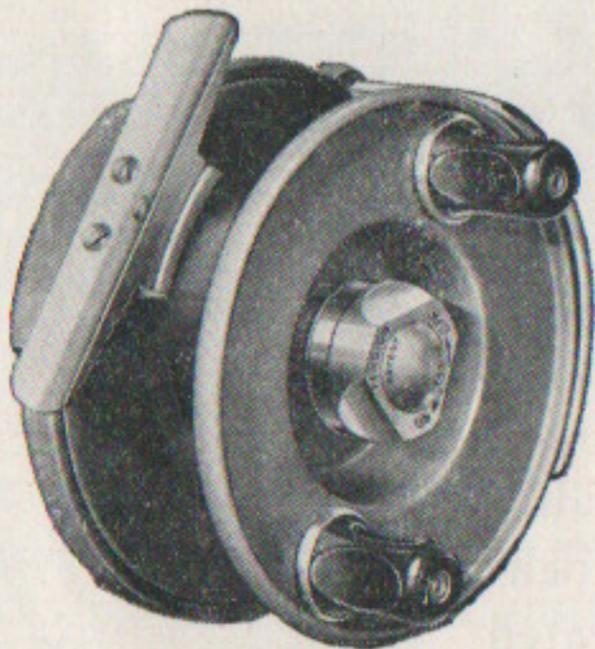

Line Capacity—

100 yds. Silk Line, 20 lbs. B.S. 125 yds. Silk Line, 16 lbs. B.S.

230 yds. Silk Line, 12 lbs. B.S.

Price, **£12 6/8**

THE "WINDEX" SPINNING OR TROLLING REEL

This is an excellent all-round spinning or trolling reel. It has an optional check easily operated by a small lever. There is a very efficient over-run control operated by means of the centre screw-knob. The capacity is sufficient to take a heavy salmon spinning line if required.

Price, £4 11/9

THE "FELTON-CROSSWIND" FIXED SPOOL REEL

This reel has a criss-cross method of spooling the line, has an automatic pick-up and good line capacity. May be used for salmon or trout spinning and can be used with left or right hand wind.

Price, £8 14/6

WOOD REELS, brass flanged with optional check. These make very good and inexpensive trolling reels and may also be used for sea fishing.

4 in. Price, 39/6; 4½ in. Price, 45/-

SUEDE REEL BAGS, small, medium and large. Price, 3/6 each.
